Prescott Creekside E-News

December 2011

We are Grateful for you!

Let us be grateful to people who make us happy; they are the charming gardeners who make our souls blossom.

-- Marcel Proust

We are grateful for all of you; for all that you do with being involved throughout the year. Our work would not be possible without our volunteers, members, and donors. You make our souls and our riparian areas blossom.

As you plan your year-end donations, please think of Prescott Creeks. Donations are an extremely important part of supporting the water quality monitoring, habitat restoring, and education that happens through Prescott Creeks.

The Watershed We Want: Granite Creek to the Verde River

The Watershed We Want: Granite Creek to the Verde River will transform policy development to integrate consideration for the natural environment, education, and sustainable economic development. The project will result in a community connected and enriched by its common water course.

Join Us for [Restoration Opportunities for Lower Miller Creek](#)

You're invited to join Prescott Creeks and Ecosa on **Thursday, December 15th from 6 – 8:30 pm**

at the Ecosa studio for a presentation on potential water quality improvements for Lower Miller Creek. Ecosa has been working with the Watershed

Improvement Council this semester to better understand the water quality challenges along Lower Miller Creeks. Please RSVP at 928-541-1002 if you are interested in coming as space is limited. Ecosa's location is 224 1/4 S. Montezuma, off the alley behind Radio Shack. For the past two years, the Granite Creek More information is available at [Prescott Creeks](#) and [Ecosa](#)
