

Prescott Creekside E-News

November 2014

to achieve healthy watersheds and clean waters

Dirty Martinis for Clean Water; Become a member and support your creeks

Join Prescott Creeks for a membership-raising party. It will take place on Friday, November 7th, from 5:30 – 7:30 pm at 1801 N. Hwy 89 in Prescott. You can

enjoy a dirty martini and meet others interested in the Creeks. You'll hear about what's being done to improve your water quality. We hope you will sign up as a new Prescott Creeks member. Hors d'oeuvres and non-alcoholic beverages will also be available. Please RSVP by email to AMBenz@PrescottCreeks.org, or by phone at (928) 445-5669.

Members create a foundation of support for improving water quality and riparian habitat. Individual, family, business members and work together with Prescott Creeks. They are making a difference in our community.

Invasive Weeds in Your Watershed

An exotic species is any species, including its seeds, eggs, spores, or other biological material capable of propagating that species, that

is not native to that habitat. Other terms sometimes used for exotic species include "non-native," "non-indigenous," and "alien." A native species is a species that, other than as a result of an introduction, historically occurs/occurred in that particular habitat.
