Prescott Creekside E-News

November 2018

www.PrescottCreeks.org

Hello Friend,

November is that time of year when the warm days head into crisp nights. The temperature changes cause the colors along the creeks to give us a jubilant show. Granite Creek along the downtown greenways is a great place to immerse yourself in this splendor. While Mother Nature gets all the credit for the autumn leaves and water in the creeks, it is your support for Prescott Creeks that helps to keep the creeks clean, accessible, and in a healthy ecological condition. Thanks! We couldn't do it without you.

Prescott Creekside E-News 10th Anniversary

The [first issue](#) of Prescott Creeks' e-newsletter came out in November of 2008. Renee Hover, then an Americorps VISTA with Prescott Creeks, pulled that issue together to let people know what was happening with the [Watson Woods Preserve Restoration Project](#), and it stuck! Since then, we've sent monthly (almost) updates to your email inbox letting you know what's happening in the watershed and in the Preserve. It's been fun to look through the back issues and see how the look and news has changed over time. Below are a few of the early newsletter headers and you can check out the annually collected E-News's at the links to the right.
