2023 Granite Creek Cleanup: Save the date: Saturday, April 22, 2023 (Earth Day!)

23 April 2022

Dear Volunteers & Sponsors,

Monday morning Prescott Creeks learned that the nearly 600 community volunteers participating in the Granite Creek Cleanup gathered **1.83 Tons** of trash and debris! That's a 50% increase from last year. 14 tires were collected (two more than in 2021). **Good job!**

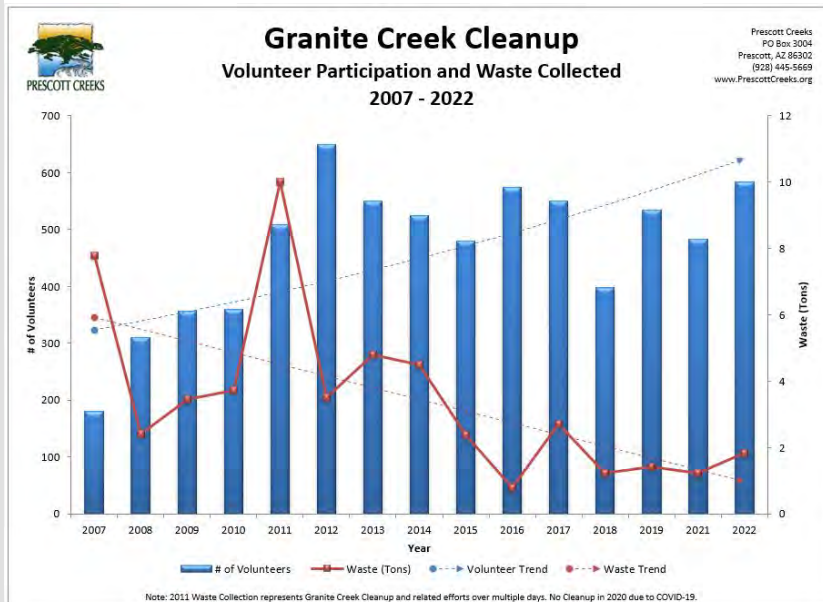

Chart of Cleanup Volunteer Participation and Waste Collected from 2007-2022.
Note increasing participation and decreasing waste collected trends.

We also spent a few hours Monday going through the trash you collected trying to get an idea of what was in it. Volunteers Lee Baldwin and Phil Taska, along with Brady Higgs at the City of Prescott Waste Transfer Station, all get special recognition for their participation in this task! It will take us a bit of time to enter and analyze the data, but we believe that plastic (bottles, cups, bags, food wrappers, lids, and more) was the most common material collected. We'll report back to you with results from the data once it is crunched and interpreted.

As before, please forward this email to your group members so they can know how much of a positive impact they've made in the community!

-Thank you!

More Pictures from the event!

Thank you for sharing!
