

# 2023 Cleanup Thank You!

www.PrescottCreeks.org

April 22nd, 2023

Hello Friend,

**492 people worked together** today at the [Granite Creek Cleanup](#) to collect trash and debris from creeks, lakes and parks in almost 50 locations around the Prescott area. Nice! *You made a difference!* It is always a such a pleasure to work with **community volunteers** doing their part to achieve a common goal – make Prescott and its waterways better by being cleaned up.

Community interest in the event continues to trend upward with the average annual participant number coming in just under 500 people.

Now that you've collected the trash and taken to one of the ~20 drop-off locations, the City of Prescott will pick it up and transport it to the Waste Transfer Station on Sundog Ranch Road early Monday morning. Once we have a final weight in tons from the City, we'll report back to you in an email and on social media to let you know how big of an impact you've made by participating in the Cleanup.

Below, you'll find a link to provide feed back on your experience participating in the Cleanup. Your completion of this survey will provide Prescott Creeks with important information to help make the event better in the future. It should take 3-5 minutes of your time (depending upon how much narrative feedback you choose to include). And there's an option to be registered to win a free Prescott Creeks hat!

[Share Your Feedback](#)

Please forward this email to your group members (since we do not have their contact info) so they can provide feedback, know what happens next - and so they can see the images from the Cleanup below!

*-Thank you!*
